

**THE ICAFI UNIVERSITY, SIKKIM'S ENERGY CLUB AND NSS CELL ORGANISED  
AWARENESS PROGRAM IN COLLABORATION WITH POWER DEPARTMENT,  
GANGTOK, SIKKIM.**

*Date: 10<sup>th</sup> September 2024*

In a progressive step towards promoting energy conservation, ICAFI University, Sikkim, through its Energy Club and NSS Cell, organized a significant event in collaboration with the Power Department. As part of their ongoing sensitization program on energy conservation,

The program included the formal handing over of 50 nos energy-saving LED bulbs by the Power Department to The ICAFI University, Sikkim as part of their mission to promote energy conservation. The event was graced by Dr. Rohit Rathi, Registrar, and Ms. Sandhya R. Pant, Deputy Registrar, alongside members of the Power Department. Their speeches highlighted the importance of saving energy for future sustainability.

A demonstration of an electric car by the Power Department also took place, showcasing sustainable transportation and its role in reducing carbon footprints. This engaging demonstration gave students a firsthand look at the benefits of electric vehicles.

As part of the program, students enthusiastically participated in a quiz competition centered on energy conservation, fostering a deeper understanding of energy-saving practices and their impact on the environment. The event proved to be an educational and interactive experience for all participants.
