ICFAI University, Sikkim has been a huge platform for me to enhance my confidence level and kick start my career after completion of my MBA program. Initially, it was difficult for me to understand the management subject as I am a non-commerce student, but I could able to overcome all this with the utmost support and guidance of the faculty members. I became more responsible and successful. I have always belief in myself and on my effort, which makes the difference.

Also the IUS placement cell provided a lot of opportunities to find a place in the corporate by bringing world class companies and organizing various campus placement activities. I really benefited from the summer internship programs, personality development classes, guest lecture sessions, and industry oriented training as organized by IUS.

My hearty thanks to all the faculty members and staffs of the University, who were helped me to adopt in every situation during my study days. The whole IUS family will always remain close to my heart forever.

I would like to say to my juniors to work hard, be smart and take the full advantage of what, IUS is offering. I can assure, IUS will surely ensure a better career and bright future for the students.

With regards and lots of love,
