

## Lecture on Climate Change

The ICFAI University, Sikkim, had the privilege of hosting distinguished dignitaries, Dr. Kamal Taori, Retired IAS, Chairman Of The Board, Unity of Nations Action for Climate Change Council (UNAccc) and Dr. Rajat Sharma, Founder, UNAccc, who visited the university campus at Ranka Road to deliver insightful lectures on contemporary and nationally significant themes.

The sessions focused on critical topics such as climate change, Digital India, and the overall development trajectory of India. The speakers shared their vast experience and expertise, providing students with valuable perspectives on 17 Sustainable Development Goals (SDGs), sustainability, governance, and technological advancement in the country.

The lectures were highly engaging and interactive, capturing the keen interest of the students. The sessions were well received, with students' actively participating and expressing enthusiasm throughout.

The university community expressed its sincere gratitude to the esteemed speakers for their enlightening talks and for inspiring young minds to think critically about pressing global and national issues.

The program concluded on a positive note, with students gaining meaningful insights and a deeper understanding of the subjects discussed.
