

## About IUS Incubation Centre

The IUS Incubation Center at The ICFAI University, Sikkim is established to nurture a culture of innovation, entrepreneurship, and collaboration among students, faculty, and the broader community. The IC of IUS shall function as one of the sub-unit of the Centre of Skill Development & Entrepreneurship (CSD&E). The policy guidelines have been framed to nurture startups and help them scale up into profitable ventures through diligent application of contemporary techniques and technologies to practical problems requiring solutions.

## Objective of the Incubator:

The primary objectives of the IUS Incubation Centre are to:

1. Support and nurture innovative ideas and projects with potential for commercialization.
2. Provide mentorship, legal, resources, and networking opportunities to incubate projects.
3. Facilitate the development of sustainable startups and enterprises.
4. To create robust revenue mechanisms for the self-sustainability of the IIC IUS.
5. To create knowledge assets such as IPRs, tech know-how and facilitate the technology transfer.

To create a positive impact aligned with the Sustainable Development Goals (SDG goals) like eradicating poverty by encouraging entrepreneurial ventures, providing good health and well-being, clean water and sanitation, clean energy, innovative solutions for the industry and others in the relevant social sectors.

## Incubates at IUS Incubation Centre
