

Certificate Programs for Skill Development

The University is committed to fostering skill development and enhancing employability through a range of paid certificate programs designed to meet industry demands. These programs are carefully curated to provide practical knowledge, hands-on training, and real-world exposure, enabling participants to upgrade their competencies and improve their career prospects. Open to students, professionals, and aspiring learners, the courses focus on bridging the gap between academic learning and industry requirements. Details of the upcoming programs, along with those successfully conducted, are listed below.
